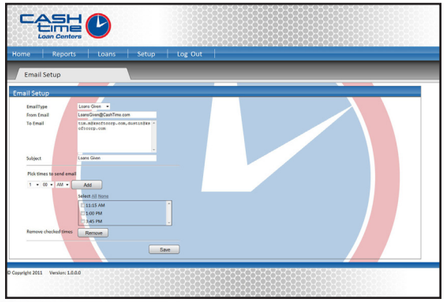
WEB DEVELOPMENT

OVERVIEW

Get on the cloud with custom web apps for your business. Being on the cloud means all your users stay synchronized, because everyone is using the most current and updated version. It is no longer nesscariy for an IT professional to roll out a major update across a network of dozens or hundreds of computers individually. Now with web (or local intranet) apps, only the server needs to be updated and then all users need to do is simply login. Which means a big savings in costs and time for your company, with little to no trade off in functionality.

KEY FEATURES



- ASP.NET, C# and Java programing
- Java-Script, AJAX and jQuery Scrpits
- MS SQL Databases
- Custom forms with advanced options
- Mobile version support available
- Support for iPhone, iPad, ipod, Android, WP7 and Black Berry.)

WEB DESIGN

OVERVIEW

kSoft now includes web design and development in it's services. We can build both big and small sites with a variety of functionality. We can design galleries, blogs and e-commerce abilities into your site as well. We also have pre made templates with space for branding. Our design services included one on one meetings with our graphic design staff, so we can better serve your needs.

KEY FEATURES

- Store Locator
- Automatic Video Integration
- Advanced image Galleries
- Hompage Slide show
- Content is fully editable by the end user
- Custom forms with advanced options
- Support for iPhone, iPad, ipod, Android, WP7 and Black Berry.)

CONTENT MANAGEMENT SYSTEMS

Update your own site

If you can edit a Facebook page then you can update your custom website by using a CMS (Content Management System). This powerful web application is installed server side and provides you with a graphical interface you can access from nearly any computer or mobile device with an internet connection. You can edit pages and post or upload photos, videos and music easily.

User accounts

A CMS is perfect for both large and small businesses, you can create user accounts with different levels of access, so you can have customers subscribe to receive updates on products and services. Well multiple employees with different levels of privileges can create and maintain your website.

Security

CMS's such as Wordpress, Drupal and Joomla feature regular security updates to help protect you from viruses and spam. There are also add-ons like CAPTCHA to help increase security further.

TERM LOAN MANAGAER

Mailing Lists and User Login

Support for mailing lists such as constant contact. Custom user accounts and login screens are available.

CUSTOM SOFTWARE

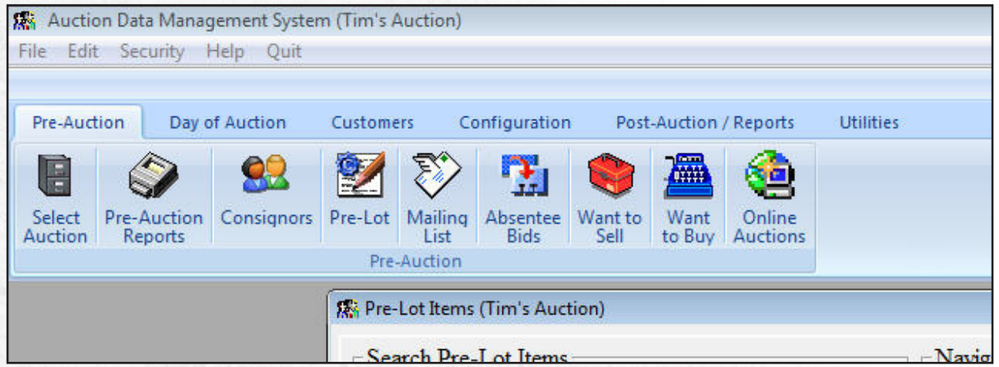
OVERVIEW

If you can't find the right app for what you need or you need one tailor made for your company than look no further. We emphasize on creating software that is easy to train, easy to use, and has the ability to be easily customized to meet the needs of the customer. We do not believe that a piece of software should dictate how you should run your business, but you should be able to tell a piece of software how you want it to run. We create apps for the Windows operating system and are skilled in a variety of diffrent languages.

KEY FEATURES

- Customizeable Interface Design
- Tabbed (Ribbon) Style navigation
- .NET Programing
- Updates and Support
- Companion web apps

MODERN USER INTERFACE DESIGN



You get the best of both worlds with our UI design featuring both traditional drop down menus and the new tabbed (Ribbon) based graphical navigation.

DESKTOP & WEB APPS

Ksoft has the unique ability to create web versions of your desktop software in house. We can offer greater compatibility and integration between our desktop and web apps as they are both created in house. The desktop verions of software give you speed and a robust set of features. Well our web apps have the advantage of being accessible anywhere you have an internet connected device including mobile. Our web apps are powered by ASP.net frame work and java-script, instead of flash which allows them to function on iPhone and Android operating systems.

HARDWARE INTEGRATION

Transaction Processing

Expand the capabilities of your software with our hardware integration options. kSoft offers payment processing hardware integration like scanners for ID/credit cards, barcode scanners and receipt printers. We can be your one stop shop for getting your business transactions up and running.

Security and Verification

We offer a variety of security hardware integrations to help you secure your business transactions as well as create an indisputable record of the transaction. For transactions we offer a finger print scanner that is both quick and accurate. The advantage of using finger print scans is due to the fact that it's a biometric ID (part of the body) it can not be faked or hacked. For recording we can integrate with web cams and microphones, so there will be no denying your transactions took place.

Integrate with your Hardware

HARDWARE

SECUGEN HAMSTER PLUS FINGERPRINT READER

The SecuGen Hamster Plus is one of the industries top high-performance and versatile fingerprint readers. This reader features Auto-On and Smart Capture technology. Simply meaning it has automatic finger placement detection (scanner is on only when in use) and high quality scans of difficult prints. This reader allows a customer's fingerprint to ultimately act as a digital password, allowing you to quickly and precisely search for a customer. This is yet another must for the check cashing company who is looking for fast, efficient, and secure ways of doing business!

SCANSHELL 800 ID SCANNER

The SecuGen Hamster Plus is one of the industries top high-performance and versatile fingerprint readers. This reader features Auto-On and Smart Capture technology. Simply meaning it has automatic finger placement detection (scanner is on only when in use) and high quality scans of difficult prints. This reader allows a customer's fingerprint to ultimately act as a digital password, allowing you to quickly and precisely search for a customer. This is yet another must for the check cashing company who is looking for fast, efficient, and secure ways of doing business!

MICROSOFT LIFECAM VX 3000

The LifeCam VX 3000 by Microsoft takes high quality video with 640 x 480 pixel resolution. The webcam also has a built-in microphone for remarkable voice clarity. Use this piece of hardware to record each check cashing transaction and then use the video playback feature that is built-into Check Cashing Manger to replay any transaction. This compact and inexpensive accessory will easily provide invaluable security for your business! The webcam in addition to a external hard drive combine to give you a video recording system. This system allows you to record every check cashing and misc sale transaction. These videos then can be replayed. These videos are a great security measure your company should definitely consider!

MAGSHELL 900 ID SCANNER

The MagShell 900 is a bi-directional magnetic strip reader. It features audible response along with LED indicators. This small and simple ID scanner not only pre-populates any new customer's information (limited to information found on the ID) but it also acts as a quick and easy search tool. Simply scan the ID of a pre-existing customer to automatically pull their record. This scanner is an ideal choice for any check cashing company!

HANDHELD 4600G BARCODE SCANNER

The 4600g handheld barcode scanner is a powerful 2D imaging solution for your company. This durable and reliable scanner allows for quick scanning and importing of data. Easy and simple setup includes connecting the scanner to the computer and scanning the barcode that is already built-into Check Cashing Manager. Standard scan range is 1.5 inches to 12.7 inches. This scanner is bound to save your company time and money!

EPSON TM-T88IV RECEIPT PRINTER

The Epson TM-T88IV is an industry leader in receipt printers. This printer is specifically designed for high-volume printing environments. This easy-to-use receipt printer offers exceptional speed and reliability. The fast two-color printing provides great looking text, logos, and other graphics. In no time you will be automatically printing high-quality professional receipts for your customers!

CHEXPRESS CX-30 DUAL SIDED CHECK SCANNER

The CheXpress CX-30 check scanner is a must for any check cashing company. This scanner gives you the highest image quality with MICR dependability and accuracy. Its fast and quiet, unique scan and return path allows for dual sided scanning in one simple scan. With one scan, most check details (including front and back images) will automatically be imported into Check Cashing Manger. There is minimal manual inputting of information. And the manual information input is only necessary once per check payee. This one piece of equipment will definitely save you time and money!

GRAPHIC DESIGN

OVERVIEW

We now offer full graphic design services for printed materials in addition to those for web and mobile. We can build business cards, stationary, catalog, brochures and whatever else you may need. In addition, full branding and marketing services are available. Which means that we can help you create or re-create your corporate identity.

KEY FEATURES

- Logo Design
- Corporate Identity
- Brochures
- Catalogs
- Advertisements
- Signs
- Packaging

kSoft Business Card

LOGOS

Corporate Identity and Logo Design
The way your company is perceived is critical to your success and nothing affects that more than the appearance of your printed and web materials. These along with your logo are often the first thing a customers sees or your business and you want to convey a since of professionalism and integrity. Customers will notice when they see a well designed logo or other materials, this will convey to them that you take your business seriously.

Consistency and Quality
Our graphic design approach allows for consistency and unity across all your materials including the web and custom software. We do all our design work in house and team members work together to make sure all materials have the same visual appearance to help establish your brand identity.

Customer Service
We offer direct one on one meetings with our design staff, either in person or over video chat. kSoft will take the time needed and do the market research to help make your brand a success.

TERM LOAN MANAGER

OVERVIEW

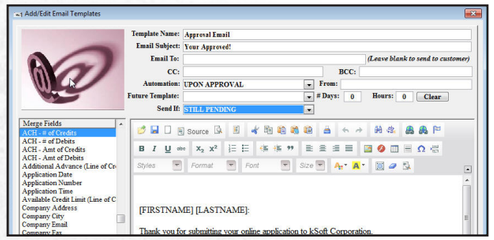
I would like to take this opportunity to introduce our Term Loan Manager software. It is an easy to use, loan management system for financial companies in the Payday, Title, Installment Loan, Lines of Credit, Internet Lending and Check Cashing industry. It is simple enough to run a single store location but also has the capability to manage multiple stores in a complex business environment.

KEY FEATURES

- ACH
- Hundreds of powerful reports that can be accessed by date range and loan type.
- Fee setup is 100% configurable to meet your specific needs.
- Built in double entry accounting system with a direct export to Quick Books.
- Fully automated integration with Credit Reporting Agencies, ACH Companies, and Veritec.
- A management website that can be accessed to view all activity for an individual store location or all the company locations as a whole.

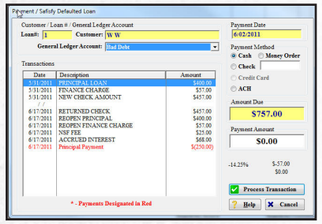
Internet Lending

Here at kSoft, we stay up to date with today's current marketing trends to provide you with more opportunity. With Term Loan Manager, we allow for all companies, big or small, to profit from today's newest lending market.



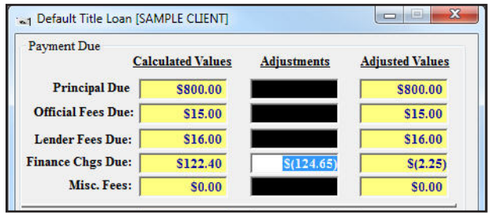
Payday Lending

In an industry riddled with government regulations, Term Loan Manager is there to keep you up to date. TLM offers you full in house customization, making it easy to comply with state laws. Our Payday module is quick, convenient, and easy to use.



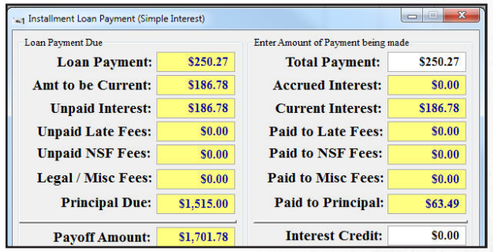
MORE CONTENT

Title Lending



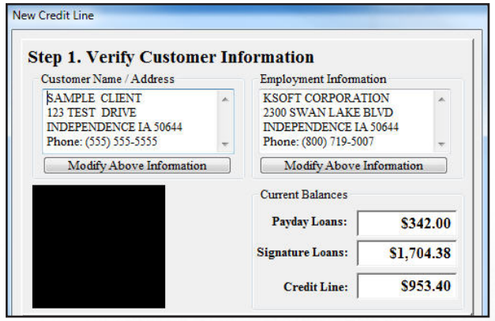
Title Loans have never been easier! In a three step process you can give a loan and easily pull in vehicle information for existing customers.

Installment Lending



In an easy three step process you can give a loan, entering loan details on a customer by customer basis. Easily enter up to two vehicles as security, and add a co-borrower to the loan.

Lines of Credit



Term Loan Manager makes extending lines of credit to qualified applicants a snap! Through credit checks to acceptance, we'll have your customers in and out in minutes. Enter the amount, and TLM takes care of the rest!

Pawns

Our software was designed with two things in mind, organization and ease of use. Let us help keep track of your pawns from beginning to completion, whether paid or not.

SUPPORTED HARDWARE

Check Scanner | Receipt Printer | Barcode Scanner | Fingerprint Reader | Web Cam | Magnetic Strip Reader | ID Scaner

CHECK CASHING MANAGER

OVERVIEW

Check Cashing Manager is designed for any business that cashes checks for consumers, whether or not you charge a fee. Once your information is plugged into this management system you can easily retrieve information about your bottom line, bad checks, etc. With Check Cashing Manager (CCM) you can quickly and easily cash any type of check, make a miscellaneous sale, and print a receipt for any customer.

KEY FEATURES

- The perfect software for any check cashing
- company, regardless of if you charge a fee.
- All information can be easily retrieved.
- Mistake and fraud proof procedures.
- Multi store tracking.
- Ability to password protect specific features and functions.
- Manage your bank account, vault and multiple cash drawers.

Hardware Integration

With the various hardware accessories that we are fully integrated with, you can make your check cashing process even faster and easier. In addition, we offer accessories that offer great security features such as video recording and fingerprint/photo identification.

Security and User Accounts

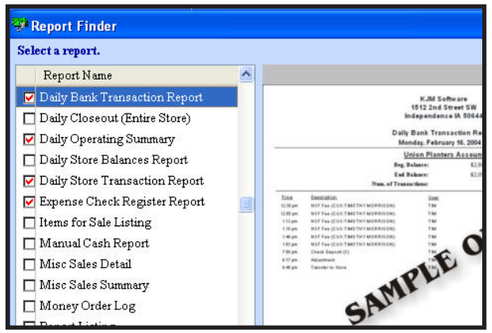
The software offers great security and reporting features. Security can be tightened down to an individual user level, allowing only specified users to perform specified transactions. There are currently 30+ reports built into the software, including an End of Day Series reports.

Technical Support

We use a simple yet powerful remote assistance program to aid in technical support. With this we can remotely connect to your computer from our home office and instantly see exactly what you are seeing!

MORE CONTENT

Reporting



Check Cashing Manager is complete with hundreds of reports to manage all aspects of your business.

Point of Sale

This powerful retail sales feature is included with the Check Cashing Manager software. CCM is now had touch screen capablity for point of sale.

Finger Print Scanning

Bio-metric identification technology allows you to be certain you have the right person.
